

## Planning Guidance

The performance recommendations indicated in the Building Research Establishment's design guide 'Site Layout Planning for Daylight and Sunlight' are those typically identified in local authority planning guidance as the ones by which the daylight and sunlight performance of a proposed development will be assessed.

### Sunlight Access (extracts)

Where a large building is proposed which may affect a number of buildings or open spaces it is often illustrative to plot a shadow plan showing the location of shadows at different times of day and year.
